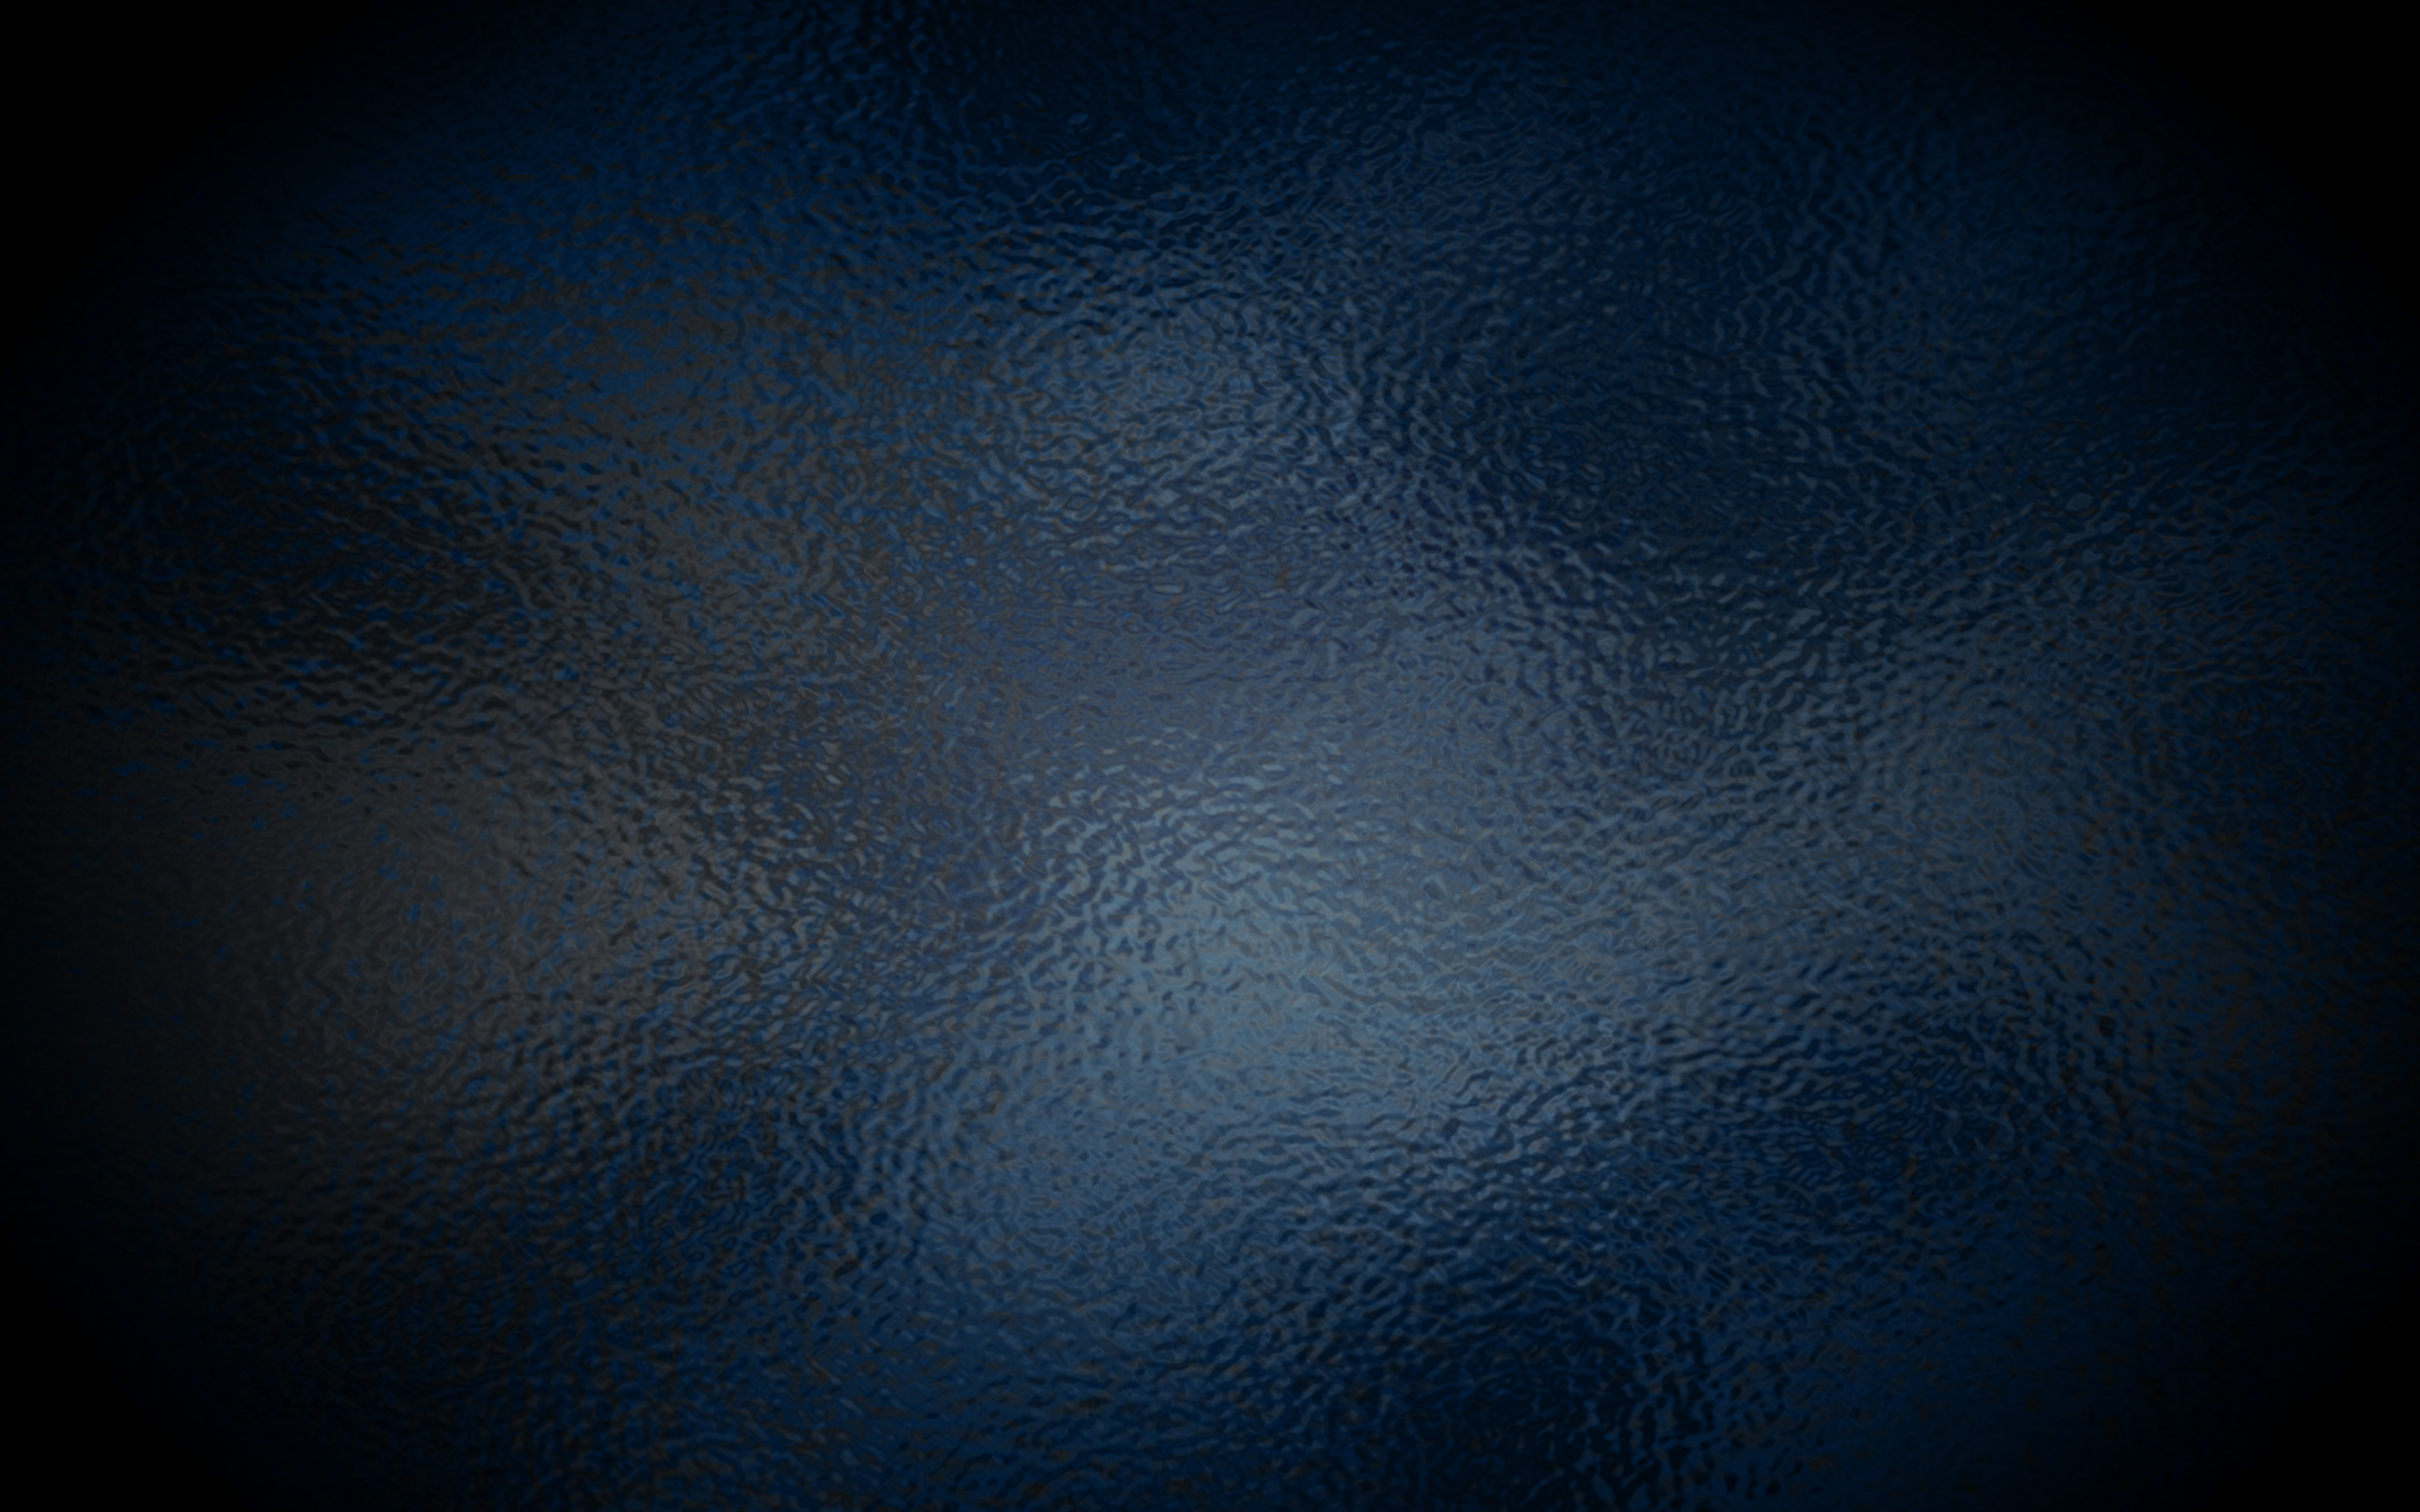
REVVEN

Sterios

2006



FEEL ALIVE.

UNCOMMON STIMULATION OF YOUR SENSES

At Revven, we're a lot more than just A to B transportation. We design our vehicles to instill a calming drama on its occupants, because silence is deafening. Hear. See. Feel. Inhale.

Audiate. Imagine. Dream. Exhale. Is what the Sterios does. From the beginning, the Sterios was concieved as a car that would reward the senses, every mile. From the way it looks to the way it sounds and, most important of all, the way it feels as you put it through its paces. the Sterios is a sensation you dont want to miss.

And for 2006, the Sterios evolution continues. There's more of everything that Sterios stands for this year: More style, in the form of the incredibly elegant Sterios coupe. More excitement, thanks to the new drama-instilling 270 horsepower V6 in top-of-the-line models. And more sheer driving pleasure, with the new Sterios convertible coming in early 2006.

For more information on the Sterios and its twins, visit our Web site at revvenusa.com/i/sterios

ALL YOU NEED TO DO IS **DRIVE ONE.**

To fall in love.

Because, your eyes, ears, and the seat of your pants will all agree: The Sterios is like no other moving mechanical machine.

Five minutes behind the wheel and your pulse tells you everything you need to know about the Sterios: we made a class-leading car with agile, fully-independent suspension, up to 270 horsepower under the hood, and generations worth of experience to help along the way.

STERIOS CROSSDREAM ZE (3.5 AWD MANUAL) in WET BEAUTY BLUE

Sterios

CROSSDREAM

THEY WONT BE ABLE TO TAKE THEIR EYES OFF IT.

Visually, a statement of refinement and balance is one of the best things a car can be. Especially when it can live up to looks: available in the same ZE, ZX, and ZXP forms as the Sedan and Coupe, the Crossdream is as invigorating to drive as it is inspiring to look at. Get in. And get ready for something great. A sensation like nothing else.
